Terms and Conditions of Sale – V.J. Pamensky Canada Inc.

1. **EXCLUSIVE CONDITIONS OF SALE:** Any Price List, Quotation or Order is subject to terms and conditions contained here-in and supersedes Buyer's Specification and/or Purchase Order. Seller will recognize no modifications or additions to these conditions unless specifically agreed to in writing by Seller. Failure of Seller to object to provisions contained in the Purchaser's Order or any other communication from Buyer shall not be construed as a waiver of these conditions or an acceptance of any such provisions. If Buyer places an Order with Seller based on Seller's Quotation, whether the Order is placed in writing or orally, then the Quotation (including Seller's terms and conditions) and the Seller's acceptance of the Order will constitute the entire contract between Buyer and Seller with respect to the subject matter thereof not withstanding any terms and conditions inconsistent with these terms and conditions on any of Buyer's forms or correspondence. All orders, sales contracts and other documentation between Buyer and Seller shall become effective only when approved and accepted by the Seller.

2. **PRICES:** Prices quoted herein are based upon presently prevailing duties, rates of duties, taxes, special assessments, monetary exchange and freight as applied to materials and/or equipment purchased or imported by Seller. Seller reserves the right to amend the price(s) in this quotation where variations in regulated costs such as rate of duties, taxes, special assessments, monetary exchange and freight between the date of quotation and date of delivery are deemed significant by the Seller.

3. **TERMS OF PAYMENT:** The standard terms of payment are Net-30 Days from date of invoice, with a service and interest charge of 1-1/2% per month (18% per annum) on past due invoices applying. If Buyer defaults in any payment when due or refuses to accept delivery or becomes insolvent, the Seller at its option, without prejudice to other lawful remedies, may defer deliveries or cancel the remainder of the order.

Equipment held for Buyer shall be at the risk and expense of Buyer and payment shall become due from the date of which Seller is prepared to make shipment. Printed terms on face of our Quotation will take precedence.

4. **TITLE:** Title to the goods covered by this Quotation and the right to immediate possession thereof shall remain with the Seller until the purchase price is paid in full and Buyer hereby grants to Seller a security interest in the equipment (and all proceeds thereof) to secure the Buyer's obligation to pay for the equipment.

5. **CERTIFICATIONS AND TAXES:** Prices do not include sales, use or other similar federal, state or local taxes. Any certification for special duty or tax rate must be supplied at time of order. A service charge will be applied on any credit notes necessitated by the Buyer not providing proper certification at time of order.

Exception from taxes extended to the buyer does not prejudice our right to charge the buyer with taxes plus any penalties assessed at any subsequent date should the taxing authorities determine that the equipment is taxable.

6. **PENALTIES AND DELAYS:** No penalty clause of any kind, in any specification of order will be effective unless specifically approved in writing by Seller. Seller shall not be liable for any damage, expenses or consequential damages caused by delays beyond Seller's control including without limiting the generality of the foregoing; fire, strike, act of the Buyer, restriction by civil or military authority, Act of God, transportation failures or inability to obtain labor, materials or manufacturing facilities. In the event of any such delay, the date of delivery shall be extended for a period equal to the time lost by reason of the delay.

7. **CANCELLATION:** Orders once accepted are not subject to cancellation unless on terms that will indemnify Seller against loss and/or expenses incurred.

8. **SHIPMENT:** Unless otherwise specified in writing, all shipments are EX-WORKS (Incoterms 2000) Seller's shop, in which case Seller is not responsible for damage, apparent or concealed, or loss in transit and all claims on "collect" shipments must be made by Buyer direct to the carrier. Seller will assist insofar as practical in securing satisfactory adjustment to reasonable claims.

9. **ACCEPTANCE, INSPECTION:** By virtue of Buyer issuing an order for equipment in accordance with this Quotation, he also accepts Seller's Terms and Conditions as part of the order. Buyer shall inspect the goods immediately upon the receipt thereof. All claims by Buyer (including claims for shortages), except only those provided for under the WARRANTY clauses below, must be asserted in writing by Buyer within a 10 day period or they are waived. If this contract involves partial performances, all such claims must be asserted within a 10-day period for each partial performance.

10. **WARRANTY:**

(a) Equipment. WEG warrants the Equipment (excluding software) against defects in material and workmanship for a period expiring on the earlier of twelve (12) months after installation or eighteen (18) months from date of shipment.

(b) Services. WEG warrants Services against defects in workmanship for a period of ninety (90) days from the date of completion of such Services.

Terms and Conditions of Sale – V.J. Pamensky Canada Inc.

- (c) Parts. If applicable to the scope of WEG's work hereunder, WEG further warrants: (i) spare parts and components sold by WEG against defects in material and workmanship for a period of twelve (12) months after shipment and (ii) repaired or refurbished parts repaired by WEG against defects in material and workmanship for a period of ninety (90) days after shipment, unless repaired pursuant to an original Equipment warranty, in which case the repair is warranted for the time remaining of the original warranty period.
- (d) Software. If software developed by WEG is furnished hereunder, WEG's sole warranty of such software is that, except as specified below, it will execute in accordance with WEG's published specification when properly installed. The warranty period shall be one (1) year from date of shipment. If the software does not meet the above warranty and if the Purchaser promptly notifies WEG and provides the description of the error and complete information about the manner of its discovery, WEG shall thereupon correct any defect or error by (at its option): (i) modifying or making available to the Purchaser instructions for modifying any erroneous program; or (ii) making available at WEG's facility corrected or replacement programs. The foregoing warranty shall not apply to defects resulting from unauthorized modification or Purchaser-supplied software or interfacing. WEG does not warrant that the functions contained in the software will operate in combinations which may be selected for use by the Purchaser, or that the software products are free from errors in the nature of what is commonly categorized by the computer industry as "bugs".
- (e) Remedies. Should any failure to conform with the applicable warranties appear during the specified periods under normal and proper use and provided the Equipment has been properly stored, installed, operated and maintained, and if given prompt written notice by Purchaser, WEG shall correct such nonconformity by, at its option, (i) repair or replacement of the nonconforming Equipment or parts thereof, or (ii) refund of the purchase price of the nonconforming Equipment or parts thereof, or (iii) in the case of nonconforming Services, provide equivalent Services at the job site or refund the price therefor. Repairs or replacements pursuant to warranty shall not renew or extend the applicable original warranty period, provided however, that any such repairs or replacement of Equipment or parts thereof shall be warranted for the time remaining of the original warranty period or 30 days, whichever is longer. Purchaser shall be responsible for providing free and clear working access to repair or replace the defect or nonconforming Equipment, including de-energizing and reenergizing the Equipment and any necessary disassembly and re-assembly of other equipment or structures, and for providing transportation to and from repair or factory facility, all of which shall be at Purchaser's risk and expense.
- (f) These warranties shall not apply to any Equipment or parts thereof which (i) have been improperly repaired or altered; (ii) have been subjected to misuse, negligence or accident; (iii) have been used in a manner contrary to WEG's instructions; (iv) are comprised of materials provided or design stipulated by Purchaser; (v) are used equipment; or (vi) result from normal wear and tear.
- (g) THE FOREGOING WARRANTIES ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES OF QUALITY AND PERFORMANCE, WRITTEN, ORAL OR IMPLIED, AND V.J. Pamensky Canada Inc. HEREBY DISCLAIMS ALL OTHER WARRANTIES INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.
- (h) Correction of nonconformities in the manner and for the period of time provided above shall be Purchaser's sole and exclusive remedy for any failure of WEG/ V.J. Pamensky Canada Inc to comply with its obligations hereunder.

11. **DAMAGES:** Subject to the balance of the provisions of this clause, Seller shall only be liable for the cost of replacement of any defective Equipment provided hereunder. Seller shall not be liable to the Buyer in any circumstances for any incidental, special, consequential or indirect damages, including but not limited to loss of profits or revenue, loss of use of equipment and facilities, and claims by or payments to customers, suppliers or other parties who have a relationship with the Buyer. This disclaimer applies to consequential damages based upon any cause of action whatever asserted against Seller including causes of action arising out of any breach of warranty, express or implied, guarantee, product liability, negligence, tort, or any other cause pertaining to the performance or non-performance of this Quotation or contract by Seller and the Buyer hereby waives any right to claim punitive, aggravated or exemplary damages with respect to a breach of this Quotation or the performance or non-performance of the Equipment, and whether such claim is founded in contract, tort or otherwise. Seller shall not be responsible for losses or damages arising out of the negligence of the Buyer, its' employees, agents or third-party contractors. In no event will Sellers maximum liability to the Purchaser in connection with the Equipment, including without limitation resulting from breach of contract or any other performance or non-performance of this Quotation or contract, exceed the amount of the purchase price paid to Seller hereunder.

12. **Nuclear Liability:** In the event that the Equipment or parts sold hereunder are to be used in a nuclear facility, the Purchaser shall, prior to such use, arrange for insurance or a governmental indemnity protecting WEG against liability and hereby releases and agrees to indemnify WEG and its suppliers from any nuclear damage, which in any manner arises out of a nuclear incident, whether alleged to be due, in whole or in part, to the negligence of WEG or its suppliers.

Terms and Conditions of Sale – V.J. Pamensky Canada Inc.

13. **Software License:**

(a) If software is furnished as part of the sale made hereunder, Purchaser obtains a limited license to use certain proprietary software identified in WEG's proposal, subject to the following: (i) the software may be used only in conjunction with equipment specified by WEG, (ii) the software is to be kept strictly confidential, (iii) the software shall not be copied, reverse engineered, or modified, (iv) the Purchaser's right to use the software shall become effective upon delivery and shall continue until the related equipment is no longer used by the Purchaser or until otherwise terminated hereunder, and (v) the rights to use the software are non-exclusive, and nontransferable, except with WEG's prior written consent.

(b) Nothing contained in this Agreement shall be deemed to convey any title to or ownership in the software or the intellectual property contained therein in whole or in part to Purchaser, nor to designate the software a "work made for hire" under the Copyright Act, nor to confer upon any person who is not a named party to this Agreement any right or remedy under or by reason of this Agreement. In the event of termination of this License, Purchaser shall immediately cease using the software and without retaining any copies, notes or excerpts thereof, return to WEG the software and all copies thereof and shall remove all machine readable software from all of Purchaser's storage media.

14. **RETURNING EQUIPMENT:** No equipment is to be returned without first obtaining from Seller shipping instructions and a return material identification number and agreement in writing as to terms. Returned equipment, which Seller elects to accept for credit is subject to reasonable handling and restocking charge commensurate with the policy of the manufacturer plus all charges incurred by Seller. Seller is not responsible for equipment that is returned without complying with the foregoing. Equipment is returned at the expense and risk of the Buyer. Returned equipment must be in the original packaging and unused.

15. **PRIVILEGE AND LIEN RIGHTS:** Seller retains all lien rights with regard to the equipment in accordance with any Builder's Lien Act, Mechanic's Lien Act, Builder and Works Act or other legislation passed pursuant to or in replacement thereof.

16. **BACK CHARGES:** Seller will accept no back charges for any reason without Seller's written permission to incur such back charges.

17. **TECHNICAL ADVICE:** Any technical advice furnished or recommendation made by Seller or any representative of Seller concerning any use or application of any of the goods is believed to be reliable, but SELLER MAKES NO WARRANTY, EXPRESSED OR IMPLIED, and ON RESULTS TO BE OBTAINED. BUYER ASSUMES ALL RESPONSIBILITY FOR LOSS OR DAMAGE RESULTING FROM THE HANDLING OR USE OF ANY OF THE GOODS.

18. **INVALIDITY:** If any provision of this contract shall be found to be invalid or illegal by reason of any determination made by a court of competent jurisdiction or any governmental authority having jurisdiction in the circumstances, such provisions shall be severed from this contract to the extent of such invalidity or illegality and the validity, legality or enforceability of the remaining provisions of this contract shall not in any way be affected or impaired thereby. Waiver of any default shall not be a waiver of any other or subsequent default.

19. **GST NUMBER:** V.J. Pamensky Canada Inc. GST Number is 105553648.

20. **APPLICABLE LAWS AND FORUM:** This contract shall be interpreted in accordance with and shall be governed by the laws of the Province of Ontario, and the parties agree that any disputes hereunder or with respect to this quotation or the resulting contract between the parties shall be determined exclusively by the Courts in the Province of Ontario, and the parties hereby expressly attorn to the exclusive jurisdiction of the Courts in the Province of Ontario.

21. **LANGUAGE:** The parties acknowledge that they have required that this contract and all related documents be prepared in English. Les parties reconnaissent avoir exigé que la présente convention et tous les documents connexes soient rédigés en anglais. If the Buyer requests, a French version of this agreement will be used.

22. **LIABILITY:** Notwithstanding anything to the contrary herein contained, the Liability of the Seller under any circumstances whatsoever and without exception shall be limited to the Purchase Price of the particular item forming part of the goods.

23. **Entire Agreement:** This Agreement constitutes the entire agreement between V.J. Pamensky Canada Inc. and Purchaser, and there are no agreements, understandings, restrictions, warranties, or representations between V.J. Pamensky Canada Inc. and Purchaser other than those set forth or provided for herein.

Magnetic Safety Sensor RFID

Magnetic Safety Sensor RFID / Sensor Magnético de Seguridad RFID

Type	Description	Model	Size	Supply Voltage	Output				Cable Position	Article nr.	Price
					Monitoring	Safety Contacts	Auxiliary Contacts	Connection type			
SSF5-50R1P2A0U	Sensor + actuator	SSF5	50R	24 V dc	Double channel	2 NC	-	Connector	Center	13081009	\$ 200,00
Cable 2 m								13021819		\$ 190,00	
Cable 10 m								13021727		\$ 210,00	

Notes: Sensor and actuator included. The sensor works only with its actuator.
For the SSF5 sensor to reach the Safety level and PL / SIL 3, it must be used in conjunction with a coded actuator connected to a WEG CP-D, or CPA-D, or similar relay.
The sensor model with connector must be used in conjunction with the cables suggested in the following table.

Accessories - Cables

Type	Model	Connector pinout	Connector Type	Lenght	Article nr.	Price
M12-8V/5	M12	8 pins	Straight	5 m	12618319	\$ 40,00
M12-8V/10	M12	8 pins	Straight	10 m	12618320	\$ 57,00

Note: These cables should only be used on RFID sensors with connector.

ACEC-K50G		Installation kit 50 m	13364855	\$ 283
ACEC-K80G		Installation kit 80 m	13287607	\$ 422

Note: Each kit consists of a tensioner, galvanized screws and Allen tools, necessary for the installation of the CEC switch.

Accessories

Type	Description	Article nr.	Price	
ACEC-TG		Galvanized cable tensioner	12535139	\$ 131
ACEC-PG		Galvanized cable tensioner	12535140	\$ 73
ACEC-EG		Galvanized screws (package with 8 units)	12535141	\$ 59
ACEC-LME26		Replacement LED (green / flashing / red in 24V)	12535142	\$ 117
ACEC-SI		Stainless steel safety spring	12535143	\$ 117
ACEC-B		Emergency button (replacement)	12535144	\$ 117

Note: These accessories are used for replacement or as a complement to the solution.

Safety Programmable Controller

Main Modules

Type	Description	Article nr.	
CPSW - MC20/6C03	Main module, 24 V dc (-15%/+10%) power supply, with 8 safety digital/analog inputs, 8 safety digital inputs (four of these inputs can be used for monitoring speed sensor 24 V dc),	13806259	\$ 3,725
CPSW - MC20/12C03	Main module, 24 V dc (-15%/+10%) power supply, with 8 safety digital/analog inputs, 8 safety digital inputs (four of these inputs can be used for monitoring speed sensor 24 V dc), 4 safety transistor digital inputs/outputs, 2 speed monitoring inputs, 6 safety transistor digital outputs, 6 relay digital outputs with safety contacts, USB port.	13806023	\$ 7,420

Speed Monitoring Module

Type	Description	Article nr.	Price
CPSW - MV10/7	Speed monitoring module with two reading inputs (encoder / sensor) for speeds up to 500 kHz. 8 digital safety inputs, 2 digital outputs / pulse transistor, 5 digital transistor safety outputs.	13806024	\$ 3,812

Input and Output Expansion Modules

Type	Description	Article nr.	Price
CPSW - IO8/7	Expansion unit with 8 digital safety inputs and 7 transistor safety digital outputs.	13806022	\$ 3,230
CPSW - IO12/4	Expansion unit with 12 digital safety inputs and 4 safety digital inputs / outputs.	13806025	\$ 2,561
CPSW - IO8/2	Expansion unit with 8 digital safety inputs and 2 relay safety digital outputs.	13806266	\$ 3,172

Communication Modules

Type	Description	Article nr.	
CPSW - MR8/ODPV1	Profibus-DP network communication module and 8 digital security inputs.	13806371	\$ 4,074
CPSW - MR8/OPNET	PROFINET network communication module and 8 digital security inputs.	13806267	\$ 4,074
CPSW - MR8/OCAN	CANopen network communication module and 8 digital security inputs.	13806370	\$ 4,074
CPSW - MR8/OECAT	EtherCAT network communication module and 8 digital security inputs.	13806369	\$ 4,074
CPSW - MR8/OMBUS	ModBus/RTU network communication module and 8 digital security inputs.	13980284	\$ 4,074
CPSW - MR8/OENET	Ethernet/IP network communication module and 8 digital security inputs.	13980285	\$ 4,074

Accessories - Cables

Type	Description	Article nr.	Price
CPSW - AC/15/8	Cable (2.5 m long and type DB15-RJ45 connector) for connecting the sensor to the speed monitoring module.	13808709	\$ 548
CPSW - AC/25/8	Cable (2.5 m long and type DB25-RJ45 connector) for the connection of the sensor to the speed monitoring module.	13807108	\$ 600
CPSW - AC/45/T	Cable (2.5 m long and connector type RJ45-free tip) for the connection of incremental or sinusoidal encoder / 5 V DC output (TTL).	13861639	\$ 373
CPSW - AC/45/H	Cable (2.5 m long and connector type RJ45-free tip) for the incremental encoder connection / 24 V DC output.	13861597	\$ 1,135
CPSW - AC/45/H/10			\$ 1,150
