Rev.		Changes Summ	hary	Performed	Checked	Date			
 This revision replaces and cancel the previous one, which must be eliminated. (1) Looking the motor from the shaft end. (2) Measured at 1m and with tolerance of +3dB(A). (3) Approximate weight subject to changes after manufacturing process. (4) At 100% of full load. 			pc M	These are average values based on tests with sinusoidal power supply, subject to the tolerances stipulated in NEMA MG-1.
