## LV Variable Frequency Drives and Soft Starters

**Price List for Automation Products  
VJP-Drives-Soft Starter-2024-R1**

**Controlled Copy**

**Issued by:  
VJ Pamensky Canada Inc.**

This catalog will be periodically updated with new and updated pages.  
The current version and update packages can be found on our website [www.pamensky.com](http://www.pamensky.com)  
or can be requested from V.J. Pamensky Canada Inc.

**Approved and Valid from:** (year/month/day)  
**2023-12-01**

**1. EXCLUSIVE CONDITIONS OF SALE:** Any Price List, Quotation or Order is subject to terms and conditions contained here-in and supersedes Buyer's Specification and/or Purchase Order. Seller will recognize no modifications or additions to these conditions unless specifically agreed to in writing by Seller. Failure of Seller to object to provisions contained in the Purchaser's Order or any other communication from Buyer shall not be construed as a waiver of these conditions or an acceptance of any such provisions. If Buyer places an Order with Seller based on Seller's Quotation, whether the Order is placed in writing or orally, then the Quotation (including Seller's terms and conditions) and the Seller's acceptance of the Order will constitute the entire contract between Buyer and Seller with respect to the subject matter thereof notwithstanding any terms and conditions inconsistent with these terms and conditions on any of Buyer's forms or correspondence. All orders, sales contracts and other documentation between Buyer and Seller shall become effective only when approved and accepted by the Seller.

**2. PRICES:** Prices quoted herein are based upon presently prevailing duties, rates of duties, taxes, special assessments, monetary exchange and freight as applied to materials and/or equipment purchased or imported by Seller. Seller reserves the right to amend the price(s) in this quotation where variations in regulated costs such as rate of duties, taxes, special assessments, monetary exchange and freight between the date of quotation and date of delivery are deemed significant by the Seller.

**3. TERMS OF PAYMENT:** The standard terms of payment are Net-30 Days from date of invoice, with a service and interest charge of 1-1/2% per month (18% per annum) on past due invoices applying. If Buyer defaults in any payment when due or refuses to accept delivery or becomes insolvent, the Seller at its option, without prejudice to other lawful remedies, may defer deliveries or cancel the remainder of the order.

Equipment held for Buyer shall be at the risk and expense of Buyer and payment shall become due from the date of which Seller is prepared to make shipment. Printed terms on face of our Quotation will take precedence.

**4. TITLE:** Title to the goods covered by this Quotation and the right to immediate possession thereof shall remain with the Seller until the purchase price is paid in full and Buyer hereby grants to Seller a security interest in the equipment (and all proceeds thereof) to secure the Buyer's obligation to pay for the equipment.

**5. CERTIFICATIONS AND TAXES:** Prices do not include sales, use or other similar federal, state or local taxes. Any certification for special duty or tax rate must be supplied at time of order. A service charge will be applied on any credit notes necessitated by the Buyer not providing proper certification at time of order.

Exception from taxes extended to the buyer does not prejudice our right to charge the buyer with taxes plus any penalties assessed at any subsequent date should the taxing authorities determine that the equipment is taxable.

**6. PENALTIES AND DELAYS:** No penalty clause of any kind, in any specification of order will be effective unless specifically approved in writing by Seller. Seller shall not be liable for any damage, expenses or consequential damages caused by delays beyond Seller's control including without limiting the generality of the foregoing; fire, strike, act of the Buyer, restriction by civil or military authority, Act of God, transportation failures or inability to obtain labor, materials or manufacturing facilities. In the event of any such delay, the date of delivery shall be extended for a period equal to the time lost by reason of the delay.

**7. CANCELLATION:** Orders once accepted are not subject to cancellation unless on terms that will indemnify Seller against loss and/or expenses incurred.

**8. SHIPMENT:** Unless otherwise specified in writing, all shipments are EX-WORKS (Incoterms 2000) Seller's shop, in which case Seller is not responsible for damage, apparent or concealed, or loss in transit and all claims on "collect" shipments must be made by Buyer direct to the carrier. Seller will assist insofar as practical in securing satisfactory adjustment to reasonable claims.

**9. ACCEPTANCE, INSPECTION:** By virtue of Buyer issuing an order for equipment in accordance with this Quotation, he also accepts Seller's Terms and Conditions as part of the order. Buyer shall inspect the goods immediately upon the receipt thereof. All claims by Buyer (including claims for shortages), except only those provided for under the WARRANTY clauses below, must be asserted in writing by Buyer within a 10 day period or they are waived. If this contract involves partial performances, all such claims must be asserted within a 10-day period for each partial performance.

**10. WARRANTY:**

- The total length of this warranty is of twelve months from the supply date by WEG or authorized dealer, proven by means of the purchase invoice of the equipment, and limited to twenty four months from the product manufacturing date.
- Services. WEG warrants Services against defects in workmanship for a period of ninety (90) days from the date of completion of such Services.

(c) Parts. If applicable to the scope of WEG's work hereunder, WEG further warrants: (i) spare parts and components sold by WEG against defects in material and workmanship for a period of twelve (12) months after shipment and (ii) repaired or refurbished parts repaired by WEG against defects in material and workmanship for a period of ninety (90) days after shipment, unless repaired pursuant to an original Equipment warranty, in which case the repair is warranted for the time remaining of the original warranty period.

(d) Software. If software developed by WEG is furnished hereunder, WEG's sole warranty of such software is that, except as specified below, it will execute in accordance with WEG's published specification when properly installed. The warranty period shall be one (1) year from date of shipment. If the software does not meet the above warranty and if the Purchaser promptly notifies WEG and provides the description of the error and complete information about the manner of its discovery, WEG shall thereupon correct any defect or error by (at its option): (i) modifying or making available to the Purchaser instructions for modifying any erroneous program; or (ii) making available at WEG's facility corrected or replacement programs. The foregoing warranty shall not apply to defects resulting from unauthorized modification or Purchaser-supplied software or interfacing. WEG does not warrant that the functions contained in the software will operate in combinations which may be selected for use by the Purchaser, or that the software products are free from errors in the nature of what is commonly categorized by the computer industry as "bugs".

(e) Remedies. Should any failure to conform with the applicable warranties appear during the specified periods under normal and proper use and provided the Equipment has been properly stored, installed, operated and maintained, and if given prompt written notice by Purchaser, WEG shall correct such nonconformity by, at its option, (i) repair or replacement of the nonconforming Equipment or parts thereof, or (ii) refund of the purchase price of the nonconforming Equipment or parts thereof, or (iii) in the case of nonconforming Services, provide equivalent Services at the job site or refund the price therefor. Repairs or replacements pursuant to warranty shall not renew or extend the applicable original warranty period, provided however, that any such repairs or replacement of Equipment or parts thereof shall be warranted for the time remaining of the original warranty period or 30 days, whichever is longer. Purchaser shall be responsible for providing free and clear working access to repair or replace the defect or nonconforming Equipment, including de-energizing and reenergizing the Equipment and any necessary disassembly and re-assembly of other equipment or structures, and for providing transportation to and from repair or factory facility, all of which shall be at Purchaser's risk and expense.

(f) These warranties shall not apply to any Equipment or parts thereof which (i) have been improperly repaired or altered; (ii) have been subjected to misuse, negligence or accident; (iii) have been used in a manner contrary to WEG's instructions; (iv) are comprised of materials provided or design stipulated by Purchaser; (v) are used equipment; or (vi) result from normal wear and tear.

(g) THE FOREGOING WARRANTIES ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES OF QUALITY AND PERFORMANCE, WRITTEN, ORAL OR IMPLIED, AND V.J. Pamensky Canada Inc. HEREBY DISCLAIMS ALL OTHER WARRANTIES INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

(h) Correction of nonconformities in the manner and for the period of time provided above shall be Purchaser's sole and exclusive remedy for any failure of WEG/ V.J. Pamensky Canada Inc to comply with its obligations hereunder.

**11. DAMAGES:** Subject to the balance of the provisions of this clause, Seller shall only be liable for the cost of replacement of any defective Equipment provided hereunder. Seller shall not be liable to the Buyer in any circumstances for any incidental, special, consequential or indirect damages, including but not limited to loss of profits or revenue, loss of use of equipment and facilities, and claims by or payments to customers, suppliers or other parties who have a relationship with the Buyer. This disclaimer applies to consequential damages based upon any cause of action whatever asserted against Seller including causes of action arising out of any breach of warranty, express or implied, guarantee, product liability, negligence, tort, or any other cause pertaining to the performance or non-performance of this Quotation or contract by Seller and the Buyer hereby waives any right to claim punitive, aggravated or exemplary damages with respect to a breach of this Quotation or the performance or non-performance of the Equipment, and whether such claim is founded in contract, tort or otherwise. Seller shall not be responsible for losses or damages arising out of the negligence of the Buyer, its' employees, agents or third-party contractors. In no event will Sellers maximum liability to the Purchaser in connection with the Equipment, including without limitation resulting from breach of contract or any other performance or non-performance of this Quotation or contract, exceed the amount of the purchase price paid to Seller hereunder.

**12. Nuclear Liability:** In the event that the Equipment or parts sold hereunder are to be used in a nuclear facility, the Purchaser shall, prior to such use, arrange for insurance or a governmental indemnity protecting WEG against liability and hereby releases and agrees to indemnify WEG and its suppliers from any nuclear damage, which in any manner arises out of a nuclear incident, whether alleged to be due, in whole or in part, to the negligence of WEG or its suppliers.

**13. Software License:**

(a) If software is furnished as part of the sale made hereunder, Purchaser obtains a limited license to use certain proprietary software identified in WEG's proposal, subject to the following: (i) the software may be used only in conjunction with equipment specified by WEG, (ii) the software is to be kept strictly confidential, (iii) the software shall not be copied, reverse engineered, or modified, (iv) the Purchaser's right to use the software shall become effective upon delivery and shall continue until the related equipment is no longer used by the Purchaser or until otherwise terminated hereunder, and (v) the rights to use the software are non-exclusive, and nontransferable, except with WEG's prior written consent.

(b) Nothing contained in this Agreement shall be deemed to convey any title to or ownership in the software or the intellectual property contained therein in whole or in part to Purchaser, nor to designate the software a "work made for hire" under the Copyright Act, nor to confer upon any person who is not a named party to this Agreement any right or remedy under or by reason of this Agreement. In the event of termination of this License, Purchaser shall immediately cease using the software and without retaining any copies, notes or excerpts thereof, return to WEG the software and all copies thereof and shall remove all machine readable software from all of Purchaser's storage media.

**14. RETURNING EQUIPMENT:** No equipment is to be returned without first obtaining from Seller shipping instructions and a return material identification number and agreement in writing as to terms. Returned equipment, which Seller elects to accept for credit is subject to reasonable handling and restocking charge commensurate with the policy of the manufacturer plus all charges incurred by Seller. Seller is not responsible for equipment that is returned without complying with the foregoing. Equipment is returned at the expense and risk of the Buyer. Returned equipment must be in the original packaging and unused.

**15. PRIVILEGE AND LIEN RIGHTS:** Seller retains all lien rights with regard to the equipment in accordance with any Builder's Lien Act, Mechanic's Lien Act, Builder and Works Act or other legislation passed pursuant to or in replacement thereof.

**16. BACK CHARGES:** Seller will accept no back charges for any reason without Seller's written permission to incur such back charges.

**17. TECHNICAL ADVICE:** Any technical advice furnished or recommendation made by Seller or any representative of Seller concerning any use or application of any of the goods is believed to be reliable, but SELLER MAKES NO WARRANTY, EXPRESSED OR IMPLIED, and ON RESULTS TO BE OBTAINED. BUYER ASSUMES ALL RESPONSIBILITY FOR LOSS OR DAMAGE RESULTING FROM THE HANDLING OR USE OF ANY OF THE GOODS.

**18. INVALIDITY:** If any provision of this contract shall be found to be invalid or illegal by reason of any determination made by a court of competent jurisdiction or any governmental authority having jurisdiction in the circumstances, such provisions shall be severed from this contract to the extent of such invalidity or illegality and the validity, legality or enforceability of the remaining provisions of this contract shall not in way be affected or impaired thereby. Waiver of any default shall not be a waiver of any other or subsequent default.

**19. GST NUMBER:** V.J. Pamensky Canada Inc. GST Number is 105553648.

**20. APPLICABLE LAWS AND FORUM:** This contract shall be interpreted in accordance with and shall be governed by the laws of the Province of Ontario, and the parties agree that any disputes hereunder or with respect to this quotation or the resulting contract between the parties shall be determined exclusively by the Courts in the Province of Ontario, and the parties hereby expressly attorn to the exclusive jurisdiction of the Courts in the Province of Ontario.

**21. LANGUAGE:** The parties acknowledge that they have required that this contract and all related documents be prepared in English. Les parties reconnaissent avoir exige que la presente convention et tous les documents connexes soient rediges en anglais. If the Buyer requests, a French version of this agreement will be used.

**22. LIABILITY:** Notwithstanding anything to the contrary herein contained, the Liability of the Seller under any circumstances whatsoever and without exception shall be limited to the Purchase Price of the particular item forming part of the goods.

**23. Entire Agreement:** This Agreement constitutes the entire agreement between V.J. Pamensky Canada Inc. and Purchaser, and there are no agreements, understandings, restrictions, warranties, or representations between V.J. Pamensky Canada Inc. and Purchaser other than those set forth or provided for herein.

**CFW100**  
**Mini Variable Frequency Drive**

CFW100 is a Variable Frequency Drive suitable for low power range motors. Compact and user-friendly, this drive is designed to attend simple industrial applications and home appliances, such as mixers/agitators, fitness equipment, car wash and swimming pool pumps.

Certifications:

# CFW100

## Mini Variable Frequency Drive

**Technical data:**

- Single phase power supply.
- Voltage range: 110-127Vac and 200-240Vac single-phase.
- Current / Power range: up to 7.3 Amps / 1,5kW (2HP)
- Control mode: scalar (V/Hz) or voltage vector VVV.
- Switching frequency: 2.5 to 15kHz.
- Overload capacity: 150% for 60sec every 10min.
- Degree of protection: IP20.
- Operating temperature: 0 to 50°C.
- Altitude: 0 to 1000m.  
up to 4000m with current derating (1% for every 100m above 1000m).
- Humidity: 5 to 95% non-condensing.
- Built-in HMI supplied as standard.

- I/O connections:					
	Std	IOAR	IOADR	IOA	IOD

## CFW320 Easy Drive

The CFW320 variable speed drive is a high-performance VSD for induction motors. It is ideal for applications on equipment requiring precise control and easy operation. In a compact size, it features contactor-style electrical installation, selectable WEG vector control (VVW) or scalar control (V/F), built-in operating interface (HMI), SoftPLC, free WPS programming software and plug-in accessories that may be added to provide extended functionalities, making it a flexible solution bringing value for money.

- Certifications:

**CFW320**  
**Easy Drive**

**Technical data:**

- Single and three-phase power supply.
- Voltage range: 110-127Vac and 200-240Vac for single-phase models.  
200-240Vac, 380-480Vac for three-phase models.  
280-340Vdc for DC-link input models.
- Current / Power range: up to 15.2 Amps / 7.5 kW (10 HP)
- Control mode: scalar (V/Hz) or voltage vector VVV.
- Switching frequency: 2.5 to 15kHz.
- Overload capacity: 150% for 60sec every 10min
- Degree of protection: IP20.
- Operating temperature: 0 to 50°C, 40°C for T4 models  
up to 60°C (50°C for T4 models) with current derating (2% for each 1°C above nominal rating).
- Altitude: 0 to 1000m  
up to 4000m with current derating (1% for every 100m above 1000m)
- Humidity: 5 to 90% non-condensing.
- Integrated brake chopper for frame size B (not available for size A). For T4 please check dedicated model.
- Local keypad supplied as standard.

- I/O connections:

<b>I/O Expansion Modules</b>				
16047096	CFW320-IOP	1	Potentiometer reference module	\$137
16047089	CFW320-IODR	2	IODR expansion module - Insulated inputs (NPN or PNP)	\$170
16046977	CFW320-IOAR	2	IOAR expansion module (1AI, 1AO and 3RO)	\$223
16047092	CFW320-IOADR	2	IOADR expansion module (1 PTC, 3RO and 1 infrared input) Simple remote control with battery, infrared sensor and NTC sensor included	\$328
16047095	CFW320-IOADR-D	2	IOADR expansion module (1 PTC, 3RO and 1 infrared input) Complete remote control with battery and DISPLAY, infrared sensor and NTC sensor included	\$380
16046971	CFW320-IOAENC	2	Encoder module - Incremental Encoder (A/A - B/B) +5Vdc@100 mA power supply, max freqency 400 kHz	\$227
16046973	CFW320-IODF	2	IODF expansion module (3DFI and 3DFO)	\$180
<b>Flash Memory Module</b>				
13014693	MMF-uDrives	-	Flash memory module (with 1m cable)	\$330
<b>RFI Filter <sup>(1)</sup></b>				
16423413	CFW320-KFA-S1-S2	-	RFI Filter accessory for CFW320 110V-240V frame size "A"	\$141
16423862	CFW320-KFB-S2	-	RFI Filter accessory for CFW320 200V-240V frame size "B"	\$165
16047216	CFW320-KFA-T2	-	RFI Filter accessory for CFW320 200V-240V frame size "A"	\$260
16047260	CFW320-KFB-T2	-	RFI Filter accessory for CFW320 200V-240V frame size "B"	\$320
16047263	CFW320-KFA-T4	-	RFI Filter accessory for CFW320 380V-480V frame size "A"	\$260
16047265	CFW320-KFB-T4	-	RFI Filter accessory for CFW320 380V-480V frame size "B"	\$320
16047266	CFW320-KFC-T4	-	RFI Filter accessory for CFW320 380V-480V frame size "C"	\$340
<b>Remote Keypad</b>				
16047211	CFW320-KHMIR	1	Kit for remote keypad (with CFW320-CRS485 + 3m cable)	\$404

(1) CFW320 RFI filters are under UL certification process.

## CFW500 Machinery Variable Frequency Drive

The CFW500 variable frequency drive is an industry purpose drive designed to deliver flexible and user friendly interface. Several accessories (I/O's, STO/SS1, communication modules) can easily be incorporated to the drive via a plug and play technology bringing simplicity to the installation.

Certifications:

# CFW500

## Machinery Variable Frequency Drive

**Technical data:**

- Single and three-phase power supply.
- Voltage range: 200-240Vac for single-phase models.  
200-240Vac, 380-480Vac and 500-600V for three-phase models.
- Current / Power range: up to 211 Amps / 110 kW (150 HP)
- Control mode: scalar (V/Hz), VVV, open loop vector control, closed loop with encoder and VVV PM (not available for IP20 frame A)
- Switching frequency: 2.5 to 15kHz.
- Overload capacity: ND = Normal Duty: 150% during 3 seconds; 110% during 60 seconds.  
HD = Heavy Duty: 200% during 3 seconds; 150% during 60 seconds.
- Degree of protection: IP20 and IP66 / NEMA Type 4X.
- Operating temperature: IP20 frames A to E: -10 to 50°C if not installed side-by-side or with NEMA1, RFI Filter and STO/SS1 models.  
IP20 frames A to E: -10 to 40°C if installed side-by-side or with NEMA1, RFI Filter and STO/SS1 models.  
IP20 frames F: 0 °C to 40 °C.  
IP20 frame G: 0 °C to 45 °C if not installed with STO/SS1.  
IP20 frame G: 0 °C to 40 °C if installed with STO/SS1.  
IP66 frames A and B: -10 °C to 40 °C.  
It's possible to operate on higher temperatures with current derating (check user manual)
- Altitude: 0 to 1000m  
up to 4000m with current derating (1% for every 100m above 1000m)
- Humidity: 5 to 95% non-condensing.
- Integrated brake chopper for IP20 models frames B to F, and IP66 models frames A and B.
- Built-in PID controller.
- Built-in HMI.

**- I/O connections:**

	IOS IOS-PNP CUSB	IOD	IOAD	IOR-B	CCAN CPDP / 2	CRS232	CRS485-B	CEMB-TCP CETH-IP	CEPN-IO	ENC

**Overload Capacity:** ND = Normal Duty: 150% during 3 seconds; 110% during 60 seconds.

HD = Heavy Duty: 200% during 3 seconds; 150% during 60 seconds.

(1) Motor power ratings are based on: WEG - 4 poles - UL508-C - 230V/60Hz - 460V/60Hz

(2) Maximum surrounding air temperature without current derating

## Variable Frequency Drives

11527460	CFW500-KN1A	NEMA 1 kit – frame size A (standard for N1)	\$46
11527459	CFW500-KN1B	NEMA 1 kit – frame size B (standard for N1)	\$54
12133824	CFW500-KN1C	NEMA 1 kit – frame size C (standard for N1)	\$71
12692970	CFW500-KN1D	NEMA 1 kit – frame size D (standard for N1)	\$93
13104601	CFW500-KN1E	NEMA 1 kit – frame size E (standard for N1)	\$101
14601107	CFW500-KN1F	NEMA 1 kit – frame size F (standard for N1)	\$220
15461789	CFW500-KN1G	NEMA 1 kit – frame size G (standard for N1)	\$288
11951056	CFW500-KPCSA	Power cables shielding kit – frame size A (standard for RFI Filter VFDs)	\$61
11951108	CFW500-KPCSB	Power cables shielding kit – frame size B (standard for RFI Filter VFDs)	\$71
12133826	CFW500-KPCSC	Power cables shielding kit – frame size C (standard for RFI Filter VFDs)	\$74
12692971	CFW500-KPCSD	Power cables shielding kit – frame size D (standard for RFI Filter VFDs)	\$81
13055389	CFW500-KPCSE	Power cables shielding kit – frame size E (standard for RFI Filter VFDs)	\$101
14601158	CFW500-KPCSF	Power cables shielding kit – frame size F (standard for RFI Filter VFDs)	\$185
15461788	CFW500-KPCSG	Power cables shielding kit – frame size G (standard for RFI Filter VFDs)	\$241
15614039	CFW500-KAPGM	PG21 to M25 Adapter (for CFW500 IP66)	\$42
<b>Solar Drive Accessories<sup>(3)</sup></b>			
14345349	CFW500-KPSA	Plug-in module with built-in Solar Drive software + Frontal cover for frame A	\$256
14345352	CFW500-KPSB	Plug-in module with built-in Solar Drive software + Frontal cover for frame B	\$265
14345353	CFW500-KPSC	Plug-in module with built-in Solar Drive software + Frontal cover for frame C	\$272
14345354	CFW500-KPSD	Plug-in module with built-in Solar Drive software + Frontal cover for frame D	\$281
14345355	CFW500-KPSE	Plug-in module with built-in Solar Drive software + Frontal cover for frame E	\$288
14987105	CFW500-KDS	Voltage divider kit for connection of the solar radiation detector panel <sup>(2)</sup>	\$277

(1) Recommended Profibus DP & DP-V1 interface module for IP66 / NEMA Type 4X models

(2) The irradiation solar panel detector is not a part of the kit. Please, consult the CFW500-KDS manual for more information

(3) Frames F and G are also available to be used as a Solar Drive. In such case, please consult you market coordinator

**CFW11**  
**Industrial and System Variable Frequency Drive**

The CFW11 series is the product applicable on more demanding applications, where high performance needs to be accomplished. Among the big variety of applications the CFW11 can meet, the ones below can be highlighted: Winders, Rewinders, Pumping System, Master-Slave in Position and Speed.

Certifications:

**Technical data:**

- Single and three-phase power supply.
- Voltage range: 200-240Vac for single-phase models.  
200-240Vac, 380-480Vac or 500-690Vac for three-phase models.
- Current / Power range: up to 1141Amps / 650kW (800HP)
- Control mode: scalar (V/Hz), open loop vector sensorless and closed loop with encoder.
- Switching frequency: 2, 2.5, 5 or 10kHz
- Overload capacity: Normal Duty (ND) = 110% for 60sec every 10min  
Heavy Duty (HD) = 150% for 60sec every 10min
- Degree of protection: IP20 and IP55
- Operating temperature: -10 to 50°C (14 to 122°F) for frame sizes A,B,C and D.  
-10 to 45°C (14 to 113°F) for frame Size E, F and G models  
-10 to 40°C (14 to 104°F) for frame Size G (720A) and H models  
possible to operate on higher temperatures with current derating (Check the user's manual)
- Altitude: 0 to 1000m  
up to 4000m with current derating (1% for every 100m above 1000m)
- Humidity: 5 to 90% non-condensing.
- Integrated brake chopper up to frame size D. Built-in option for frame size E.
- DC link inductors (excepting on frame size "H")
- Built-in PID controller.
- Flash memory
- Local graphic keypad with backlight and real-time clock supplied as standard.
- USB Connection;
- Soft-PLC

**I/O connections:**

	Std	IOA-01	IOB-01	IOC-01	IOC-02	IOC-03	PLC11-01	PLC11-02
Digital inputs	6	2	2	8	8	8	9	4
Digital outputs	-	2	2	-	8	7	3	3
Relay outputs	3	-	-	4	-	-	3	1
Analog inputs	2	1	2	-	-	-	1	-
Analog outputs	2	2	*	-	-	-	2	-

(1) Module changes the standard CFW11 Analog output to isolated ports.

**Fieldbus:**

RS232 WEbus	RS485 WEbus	Modbus RTU	Modbus TCP	Profibus DP	Profibus DPV1	Profinet	CANopen	DeviceNet	EtherNet/IP	EtherCAT	BACnet
N/A	N/A	RS485-01 or RS485-05 CAN/RS485-01 RS232-01 or RS232-05	MODBUS/TCP-05 MODBUS/TCP-2P-05	PROFIDP-05	PROFIBUS DP-01	PROFINET IO-05	CAN/RS485-01 CAN-01	DEVICENET-05 CAN/RS485-01 CAN-01	ETHERNET/IP-05 ETHERNET/IP-2P-05	ETHERCAT-01	RS485-01 CAN/RS485-01 <b>(special firmware)</b>

**Accessories:**

- IP21 / NEMA 1 kits.
- Encoder Modules
- I/O Expansion Modules
- Communication Modules
- Temperature Transducers Modules (for PTC, PT100 and KTY)
- Remote keypad kit

**Built-in Optionals:**

- External +24Vdc power supply for control board
- Safe Torque Off (STO) function in accordance with EN ISO 13849-1 (Cat. 3 / PL d) and IEC 62061 / IEC 61508 (SIL 2)
- RFI filter - Cat. C3

**Special versions:**

- Common / DC Bus Version (without input rectifier bridge)
- IP55 enclosure

**Special Functions:**

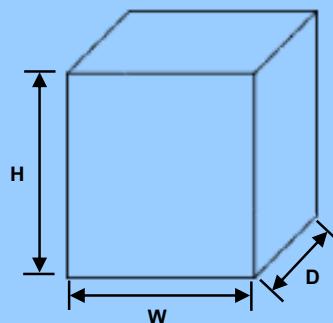

- Lifting/hoisting
- Surface winder
- Multipump

CFW11

### Overload Capacity:

ND = Normal Duty: 150% during 3 seconds; 110% during 60 seconds.

HD = Heavy Duty: 200% during 3 seconds; 150% during 60 seconds.

(1) Motor power ratings are based on: WEG - 4 poles - UL508-C - 575V/60Hz

(2) Maximum surrounding air temperature without current derating

(3) Frame size "H" does not have a built-in DC-link Inductor. Input reactor(s) **MUST** be used.

(4) The CFW11 584 T6 and CFW11 625 T6 models have ONE rectifier input bridge and the input reactor must be connected on the bridge. The CFW11 0758 T6 and CFW11 0804 T models have TWO rectifier input bridges, the input reactors must be connected one per bridge.

#### Overload Capacity:

ND = Normal Duty: 150% during 3 seconds; 110% during 60 seconds.

HD = Heavy Duty: 200% during 3 seconds; 150% during 60 seconds.

(1) Motor power ratings are based on: WEG - 4 poles - UL508-C - 230V/60Hz & 460V/60Hz

(2) Maximum surrounding air temperature without current derating

<b>Conduit Kit</b>				
11010787	KN1A-01	-	NEMA 1 - Conduit kit for frame size A + Power cables shielding	\$114
11010800	KN1B-01	-	NEMA 1 - Conduit kit for frame size B + Power cables shielding	\$135
11010802	KN1C-01	-	NEMA 1 - Conduit kit for frame size C + Power cables shielding	\$154
11010264	KIP21D-01	-	IP21 - Kit for frame size D (top cover)	\$161
10960842	KN1E-01	-	NEMA 1 – Top cover kit for frame size E (T4 - 105 and 142A / T6 - All sizes)	\$104
10960850	KN1E-02	-	NEMA 1 – Top cover kit + Conduit for frame size E (T4 – 180 and 211A)	\$284
11417558	KN1F-01	-	NEMA 1 - Conduit kit for frame size F	\$544
11417559	KN1G-01	-	NEMA 1 - Conduit kit for frame size G	\$615
12362029	KIP20	-	IP20 kit for DBW03 / DBW04	\$128
<b>Shielding Kit (included in the FA models)</b>				
11010265	PCSA-01	-	Power cables shielding kit for frame size A	\$66
11010266	PCSB-01	-	Power cables shielding kit for frame size B	\$69
11010267	PCSC-01	-	Power cables shielding kit for frame size C	\$74
<b>Extractable Mounting</b>				
11337710	KME-01	-	Kit for Extractable Mounting - Frame size E	\$1,477
11337634	KMF-01	-	Kit for Extractable Mounting - Frame size F	\$1,525
11337714	KMG-01	-	Kit for Extractable Mounting - Frame size G	\$1,624
12715724	KMH-01	-	Kit for Extractable Mounting - Frame size H	\$1,704
<b>Safety Stop Deactivation</b>				
13429125	CFW11-KSDC	-	Kit to deactivate Safety Stop function in VFD models that has this feature	\$37

## CFW11 Optional

<b>External 24 VDC Power Supply</b>				
-	W option 1	-	Additional price for 24 VDC power supply W1 is for frame sizes A,B,C, D and E except for frame size D T5 and T6	\$1,011
-	W option 2	-	Additional price for 24 VDC power supply W2 is for frame Sizes F, G, H and frame sizes D T5 and T6	\$1,242

# CFW501

## HVAC-R Variable Frequency Drive

The CFW501 family was designed to meet the needs of the HVAC-R market (heating, ventilation, air conditioning and refrigeration), also offering the following special functions: FireMode, Bypass, BACnet Communication, Dry Pump Control and Broken Belt Identification. The CFW501 family is perfect for use in ventilation and pumping systems that are often found in shopping malls, hotels, airports, etc.

Certifications:

**CFW501**  
**HVAC-R Variable Frequency Drive**

**Technical data:**

- Single and three-phase power supply.
- Voltage range: 200-240Vac and 380-480Vac, both for three-phase models.
- Current / Power range: up to 31Amps / 15 kW (20 HP)
- Control mode: scalar (V/Hz) or voltage vector VVW.
- Switching frequency: 2.5 to 15kHz.
- Overload capacity: 110% for 60sec every 10min, 150% for 3sec every 10min.
- Degree of protection: IP20.
- Operating temperature: -10 to 50°C. 40°C if installed side-by-side.  
up to 60°C with current derating (2% for each 1°C above 40°C).
- Altitude: 0 to 1000m  
up to 4000m with current derating (1% for every 100m above 1000m)
- Humidity: 5 to 90% non-condensing.
- Integrated brake chopper for frame size B, C and D (not available for size A).
- Built-in PID controller (3x).
- Local keypad supplied as standard.
- Built-in RFI Filter

I/O connections:	
	CRS485
Digital inputs	4
Digital outputs	1
Relay outputs	2
Analog inputs	2
Analog outputs	1

Fieldbus:		
Modbus RTU	BACnet	Metasys N2
CRS485 (built-in)	CRS485 (built-in)	CRS485 (built-in)

**Accessories:**

- IP21/NEMA 1 kit
- Flash Memory
- External HMI

**CFW701**  
**HVAC Variable Frequency Drive**

The CFW701 HVAC is the product specifically designed for use in applications where mainly fans, compressors and pumps are the driven loads. This product has specific HVAC functionalities used on Heating, Ventilation, Air-Conditioning and Refrigeration market.

Certifications:

# CFW701

## HVAC Variable Frequency Drive

**Technical data:**

- Single and three-phase power supply.
- Voltage range: 200-240Vac for single-phase models.
- Current / Power range: up to 211Amps / 132kW (180HP)
- Control mode: scalar (V/Hz), open loop vector sensorless.
- Switching frequency: 2.5, 5 or 10kHz
- Overload capacity: Normal Duty (ND) = 110% for 60sec every 10min
- Degree of protection: IP20, NEMA 1 and NEMA 12 / IP55
- Operating temperature: please check the User's Manual
- Altitude: 0 to 1000m
  - up to 4000m with current derating (1% for every 100m above 1000m)
- Humidity: 5 to 90% non-condensing.
- Integrated brake chopper up to frame size D. Built-in option for frame size E.
- Built-in RFI filter
- DC link inductors
- Built-in PID controller.
- Local LCD keypad with backlight as standard. Engineering units: psi,bar, °C,gal,ft,in,gal/min,l/s
- Soft PLC

**I/O connections:**

	Std	CCK-01
Digital inputs	8	-
Digital outputs	3	-
Relay outputs	2	2
Analog inputs	3	-
Analog outputs	2	-

**Fieldbus:**

RS232 WEGbus	RS485 WEGbus	Modbus RTU	Modbus TCP	Profibus DP	Profibus DPV1	CANopen	DeviceNet	EtherNet/IP	BACnet	Metasys N2
N/A	N/A	Buit-in the product terminals as standard	N/A	N/A	N/A	N/A	N/A	N/A	Buit-in the product terminals as standard	Buit-in the product terminals as standard

**- Accessories:**

- IP21 / NEMA 1 kits.
- Remote keypad kit
- Flash memory

**- Built-in Optionals:**

- Safe Torque Off (STO) function in accordance with EN ISO 13849-1 (Cat. 3 / PL d) and IEC 62061 / IEC 61508 (SIL 2)
- External +24Vdc power supply for control board

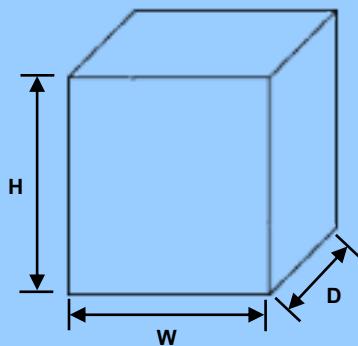

**- Special Functions:**

- Fire Mode
- Dry Pump
- Broken belt
- By-Pass
- Energy Saving
- Sleep Mode
- Wake-up Mode
- Short Cycle Protection - Compressors
- Two additional PID controllers

### Overload Capacity:

ND = Normal Duty: 150% during 3 seconds; 110% during 60 seconds.

(1) Motor power ratings are based on: WEG - 4 poles - UL508-C - 230V/60Hz & 460V/60Hz

(2) Maximum surrounding air temperature without current derating

-	W option 2	-	Additional price for 24 VDC power supply (Frame Size D on 500~600V)	\$1,242
-	W option 3	-	Additional price for 24 VDC power supply (Frame Sizes A and B)	\$959

## MW500

### Decentralized Variable Speed Drive

The MW500 series offers the user a "decentralized mode" installation concept. Its degree of protection IP66 (NEMA 4x) allows installation flexibility since it can be done directly on the motor itself or on the walls of the electrical room or machine frame. This reflects in the optimization of the physical space required and mainly in the economic savings by eliminating the need for the electrical cabinet and cables.

- Certifications:

## MW500 G2

### Decentralized Variable Speed Drive

**Technical data:**

- Single-phase and three-phase power supply.
- Voltage range: 200-240Vac for single-phase models and 380-480Vac for three-phase models.
- Current / Power range: up to 19,2 Amps / 9,2 kW (10 HP)
- Control mode: V/f scalar control, VVV control (synchronous and asynchronous motors), vector control with sensor and sensorless.
- Switching frequency: 2.5 to 15kHz.
- Overload capacity: 150% for 60sec every 10min, 200% for 3sec every 10min.
- Degree of protection: IP66 or NEMA4X
- Operating temperature: 0 to 40 / 50°C if mounted on top of a self-ventilated WEG motor.  
up to 60°C with current derating (2% for each 1°C above 50°C).
- Altitude: 0 to 1000m  
up to 4000m with current derating (1% for every 100m above 1000m)
- Humidity: 5 to 90% non-condensing.
- Integrated brake chopper
- Integrated Disconnect Switch as optional
- Built-in PID controller.
- Fits on W21/W22 WEG electric motors
- Soft-PLC
- PTC Input

**- I/O connections:**

(1) Ratings considering the MW500 assembled on the self-ventilated motor frame with maximum 40°C surrounding temperature.

(2) Wall ratings considering wall assembly at 40°C or self-ventilated motor assembly with 50°C.

(3) Motor power ratings are based on: WEG - 4 poles - UL508-C - 230V/60Hz & 460V/60Hz

## SSW05 Micro Soft-Starte

The SSW05 electronic Soft-Starte has been designed to drive three-phase induction motors applied to light duty loads.

### Applications

- Centrifugal Pumps
- Axial Fans
- Screw Compressors

Certifications:

**Technical data:**

- Voltage range: 220-440 V and 460-575 V for three-phase power supply
- Control and Fan power supply: 90...250Vac
- Current/Power range: up to 85 Amps / 55kW (75HP)
- Overload capacity: 300% for 10 seconds every 15 minutes
- Degree of protection: IP00
- Operating temperature: 0 to 55°C
- Altitude: 0 to 1000m

up to 4000m with current reduction (1% for every 100m above 1000m)

- Humidity: 5 to 90% non-condensing.
- Initial Voltage Adjustment (30%...90%)
- Acceleration ramp time 1...20s
- Deceleration ramp time: OFF or 1...20s
- Rated Motor Current Adjustment: 30%...100%
- Built-in By-pass

**- I/O connections:**

- 1 Digital Input to Start/Sop function
- 1 Output Relay indicating when the Soft-Starte reached 100% of rated voltage (for by-pass)
- 1 Output Relay indicating that the Soft-Starte is running
- 1 Digital Input for errors reset

Fieldbus:

Standard	MW-02	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	

**Accessories:**

- Remote Keypad
- Communication Cables

Product and Series	Model Identification					Special hardware version	Special software version	End of code
	Rated current (A)	No. of phases power supply	Rated voltage	Manual Language	Product version			
SSW05	10	T	2246	T	P	-	-	Z
SSW05	3	T = three-phase						
	10	2246 = 220...460Vac						
	16	4657 = 460...575Vac						
	23	T = Trilingual						
	30	P = Portuguese						
	45	E = English						
	60	S = Spanish						
	85	P = Plus version						
		Blank = Standard version						
		Hx = Optional version x (H1...Hn)						
		Blank = Standard version						
		Sx = Optional version x (S1...Sn)						
		Z = End of coding						

Dimensions and weight (without packaging):

Frame size	Height mm (in)	Width mm (in)	Depth mm (in)	Weight kg (lbs)	
1	130 (5.12)	59 (2.32)	145 (5.71)	0.8 (1.76)	
2	185 (7.28)	79 (3.11)	172 (6.77)	1.7 (3.75)	

The diagram shows a 3D perspective view of a rectangular metal enclosure. It is oriented vertically, with its front face slightly angled. Three dimensions are indicated: Height (H) is the vertical distance from the base to the top; Width (W) is the horizontal distance across the front face; and Depth (D) is the horizontal distance from the front face to the back face.

## SSW07

### General Purpose Soft-Starters

The Soft Starter SSW-07 series has been developed on the matter of achieving the best cost-benefit ratio, the SSW07 applied for heavy load starts.

#### **SSW07 for Heavy Loads**

- Stone Crusher
- Centrifuge
- Wood Chipper
- Wood Slicing machine
- Conveyor
- Axial and Centrifugal Fan
- Ball Mill (Ceramic)
- Hammer Mill

Certifications:

# SSW07

## General Purpose Soft-Starters

**Technical data:**

- Voltage range: 220-575 Vac for three-phase power supply
- Current range/power: up to 412 Amps / 300kW (450HP)
- Power range: up to 110kW @ 230Vac, 220kW @ 400Vac and 300kW @ 525Vac.
- Overload capacity: 300% during 30 seconds

- Degree of protection: IP20 (up to 85A) and IP00 (130A and above)
- Operating temperature: 0 to 55°C
- Altitude: 0 to 1000m  
up to 4000m with current reduction (1% for every 100m above 1000m)

- Built-in By-pass

- **Control features:**

- Pump Control system
- Voltage Ramp Control
- Voltage Kick Start
- Current Limit

- **I/O connections:**

- 3 Isolated digital inputs
- 2 Outputs relays with NO contacts, 240 V / 1 A, programmable functions

# SSW900

## Soft-Starter

The SSW900 is designed for Heavy and light duty applications offering a big variety of functions as well as accessories that meet entirely the market demands in all segments. Beyond all great functionalities found on current WEG Softstarters additional flexibility were given to the SSW900 like Modern and easy to use display with embedded USB port, Real Time Clock(RTC), several new communication modules (Profinet IO, Modbus TCP, Ethernet IP) and Soft PLC capability using WPS software.

### Applications

- Pumps
- Centrifugal Fans
- Compressors
- Conveyors
- Crushers

Certifications:

# SSW900

## Soft-Starter

**Technical data:**

- Voltage range: 220-690 V for three-phase power supply
- Current range: 10 up to 1400 Amps / (2200HP)
- Overload capacity: 300% for 30 seconds, 10 Starts/hour (with ventilation kit) for frame sizes A through D
- Overload capacity: 300% for 30 seconds, 5 Starts/hour for frame size E through G
- Degree of protection: IP20 (10 to 105A) and IP00 (130A and above)
- Operating temperature: 0 to 55°C for frame sizes A to D and 0 to 40°C for frame size E to G.
- Altitude: 0 to 1000m

From 1000 to 4000m with current reduction (1% for every 100m)

From 2000m up to 4000m with voltage reduction (1.1% for every 100m)

- Humidity: 5 to 90% non-condensing.

- Built-in By-pass

- Graphic Keypad

- Soft PLC Built-in

- USB Built into the keypad

- Three different braking methods

- Standard three wires or inside delta connection (six wires)

- Fire mode

- Real Time Clock

- Thermistor input

**- Control features:**

Copy function(keypad)

2 slots for IO expansion or communication Modules

Voltage and Current Ramp Control

Help Soft key for programming

Current limitation

Log of events

Torque control

- I/O connections:

(1) Motor power ratings are based on: WEG - 4 poles - UL508-C - 230V/60Hz

(2) Maximum surrounding air temperature without current derating

(3) Maximum motor current with 6 wires connection (inside delta)

(1) Motor power ratings are based on: WEG - 4 poles - UL508-C - 690V/60Hz

(2) Maximum surrounding air temperature without current derating

(3) 6 wires connection (inside delta) is not available for 600...690V power supply

(4) Units T6 doesn't carry UL/cUL mark.

14197838	SSW900-KECA-171	External Current Transformer for SSW900 171A	\$939
14197839	SSW900-KECA-200	External Current Transformer for SSW900 200A	\$978
14197840	SSW900-KECA-255	External Current Transformer for SSW900 255A	\$1,218
14197841	SSW900-KECA-312	External Current Transformer for SSW900 312A	\$1,278
14197842	SSW900-KECA-365	External Current Transformer for SSW900 365A	\$1,318
14197843	SSW900-KECA-412	External Current Transformer for SSW900 412A	\$1,337
<b>Front cover Kit for power terminals</b>			
14691775	SSW0708900-PROT-3C	Front cover kit for power terminals for SSW07/08 frame 3 and SSW900 frame C (130 to 200 A)	\$77
14691772	SSW0708900-PROT-4D	Front cover kit for power terminals for SSW07/08 frame 4 and SSW900 frame D (255 to 412 A)	\$93
14691809	SSW900-PROT-E	Front cover kit for power terminals for SSW900 frame E (480 to 670 A)	\$185
<b>Busbar Kit</b>			
14691998	SSW900 - KB-MEC E	Kit with six bars for frame E - external bypass connection	\$448
15144306	SSW900 - KB-MEC F	Kit with six bars for frame F - external bypass connection	\$560
15144348	SSW900 - KB-MEC G	Kit with three bars for frame G : 1x for single side input / output connection and 2x for external bypass connection	\$660

<sup>(1)</sup> Bluetooth interface is available for USA and part of Europe with FCC and CE certification.

**SCA06**  
**Servo Drive**

The SCA06 is a high performance product that allows the speed, torque and position control of three-phase sine-wave alternate current servo motors. It has 3 slots for connecting accessories, and they can be installed easily and quickly through the plug-and-play concept. It features an operating interface with LED display with six-digit control, adjustment and view of all parameters. The SCA06 features excellent cost-benefit, with PLC function, positioning blocks, free programming software and CANopen communication included in the standard product that can be used in all kinds of applications.

Certifications:

# SCA06

## Servo Drive

**Technical Data:**

- Single-phase and three-phase power supply
- Voltage range: 220-230Vac for single-phase model  
220-230Vac or 380-480Vac for three-phase models
- Current range: 4A (single-phase) to 30A (three-phase).
- Control: speed, torque or position
- Switching Frequency: 10kHz
- Protection degree: IP20
- Ambient temperature of operation: 0°C to 50°C (32°F to 122°F).  
2% output current reduction for each 1°C above 50°C up to 60°C
- Altitude: 0 to 1000m  
above 1000m (3280.8 ft) up to 4000m (13123.3 ft) with output current reduction (1% reduction for each 100m above 1000m)
- Air relative humidity: 5 to 90% non-condensing
- Independent control and power supply
- Position feedback by resolver or HyperFace DSL encoder
- Built-in braking IGBT
- Memory Stick
- HMI with six-digit LED display
- USB port
- Soft-PLC (Programmable Logic Controller - PLC, built-in the standard product)

**Accessories:**

- Digital I/O expansion modules
- Analog Input expansion modules
- Encoder input modules
- Encoder repeater or encoder simulator output module
- Communication modules

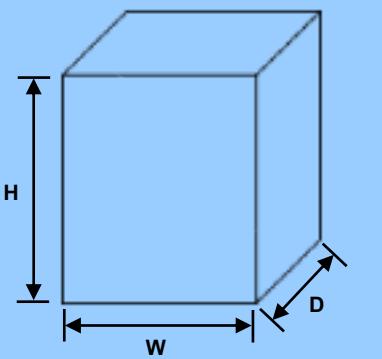

**Optionals:**

- RFI Filter category C3 (according to EN 61800-3 and EN 55011 standards)
- Safety stop according to EN ISO 13849-1 standard, category 4. Protection level e (PLe)
- +24Vdc internal power supply to the control card and Fieldbus.

Product and Series	Model Identification					RFI Internal Filter	Safety Stop Module	24 Vdc Internal Power Supply	User's Manuals Set

**SWA**  
**Servo Motor**

The SWA servo motors are electrical machines (protection degree IP65) without ventilation. The servo motors have flange and can be installed on the horizontal position (Mounting B5 without feet, fixed by the flange), V1 (without feet, fixed by the flange down) and V3 (without feet, fixed by the flange up). All the SWA servo motors are supplied with "resolver" or HyperFace DSL encoder for feedback, thermistors in the stator to protect against overtemperature and retainer on the shaft to seal oil penetration.

Certifications:

# SWA

## Servo Motor

### Technical Specifications:

- Protection degree IP65 (servo motor with brake has protection degree IP54)

- Class F insulation

- Resolver or HyperFace DSL feedback

- Mounting: B5 (without feet, fixed by the flange)

V1 (without feet, fixed by the flange down)

V3 (without feet, fixed by the flange up)

- Thermal protector (PTC)

- Shaft material: STEEL SAE 1045

- Rare-earth magnets (Neodymium-Iron-Boron)

- Bearings with permanent lubrication

- Retainer for shaft seal

- Maximum operating temperature in permanent duty:  $\Delta T = 100^{\circ}\text{C}$

### Technical Features:

- Sine-wave counter-electromotive force

- Smooth and uniform rotation at all speeds

- Low noise and vibration

- Wide speed range with constant torque

- Low maintenance (brushless servo motors)

- High overload capacity

- Media inertia

- Quick dynamic response

### Optional:

- Electromagnetic brake

- Other electrical/mechanical special features, on request

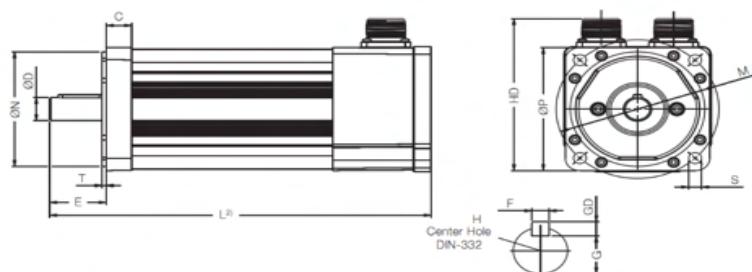

# SWA

**Self Supported Variable Frequency Drive Panel**

AFW is a Low Voltage Variable Frequency Drive (VFD) assembled in an indoor, freestanding, metallic panel, designed to drive AC low voltage motors. It is a standard solution that combines high efficiency, easy installation and operation in a optimized design, assembled in a self-supported NEMA 4/12 enclosure. This product includes protections, functions and accessories ready to be used by the customer. The panel characteristics presented herein refers to WEG standard variable speed drive panel AFW11. Any necessary change can be done according to customer requests.

Approvals:

**Technical data:**

- Three-phase power supply.
- Voltage range: 380-480Vac, 500-600Vca or 660-690Vac.
- Current / Power range: up to 1141Amps / 650kW (800HP).
- Control and fans power supply: 110/220VAC, 50/60Hz, w/ internal auxiliary transformer.
- Control mode: scalar (V/Hz), open loop vector sensorless and closed loop with encoder.
- Switching frequency: 2 ; 2.5; 5 ; 10 kHz (check VFD model).
- Overload capacity: Normal Duty (ND) = 110% for 60sec every 10min  
Heavy Duty (HD) = 150% for 60sec every 10min
- Altitude: 0 to 1000m, up to 4000m with current derating (1% for every 100m above 1000m)
- Humidity: 5 to 90% non-condensing.
- Integrated brake chopper up to frame size D. Built-in option for frame size E.
- Built-in PID controller.
- Flash memory.
- Soft-PLC.

**AFW11 panel arrangement:**

- Panel assembled system.
- In accordance to UL/cUL
- VFD CFW11 unit.
- Standard input protection: Circuit Breaker or Disconnect switch + High Speed Fuses.
- Cooling system: Natural up to framesize A; Air Fans on door from framesize B to F; Air Fans on roof from framesize G to H.
- Protection Degree: NEMA 1, NEMA 4/12, NEMA 4X
- Environment Installation: Indoor / Non Aggressive.
- Panel Space Heater (If required).
- Fused Control Power transformer.
- Auxiliary Contactors.
- RFI/EMC filter (internal to VFD unit).
- DC-Link inductor (internal to VFD unit up to framesize G) / Input reactor (framesize H);
- Mounted on Door:
  - Graphic keypad with backlight and real-time clock supplied as standard.
  - USB Connection.
  - Local Start/Stop pushbuttons.
  - Emergency Stop category 0 pushbutton.
  - Ready, Running and Fault pilot lights.

**Accessories (Select from CFW11 Accessories Pricelist)\*:**

- I/O Expansion Modules
- Temperature Transducers Modules
- Encoder Modules
- Communication Modules

**Optionals:**

- Changes in standard Input protection device (MCB/Disconnect Switch/Contactor).
- Input/Output Filters.
- Safety stop in accordance with EN-954-1, category III.
- Multimotor.

**Special versions (Contact factory):**

- Common DC Bus Version.
- Multi Pulse Rectifier.
- Regenerative / AFE.

Note: For different optionals than herein mentioned, please contact.

**AFW11**  
**Self Supported Variable Frequency Drive Panel**

Product and Series	Model Identification			Product Version	Degree of Protection	Braking	Conducted Emission Level	Safety Stop	External power supply for control	End of Code

The AFW11M is a Low Voltage Variable Frequency Drive (VFD) assembled in an indoor, freestanding, metallic panel, designed to drive AC low voltage motors. It is a standard solution that uses CFW11M modular versions power arms converters, combining high efficiency, easy installation and operation in a optimized design, assembled in a self-supported IP42 or IP54 enclosure up to high power range values. This product includes protections, functions and accessories ready to be used by the customer. The panel characteristics presented herein refers to WEG standard variable frequency drive panel AFW11. Any necessary change can be done according to customer requests, for that matters contact factory since additional parts, personal and extra taxes may be applied.

Approvals:

**Modular Self Supported Variable Frequency Drive Panel****Technical data:**

- Three-phase power supply.
- Voltage range: 380-480Vac, 500-600Vca or 660-690Vac
- Current / Power range: up to 3012 Amps / 1850kW (2500HP) @ 440 Vac  
up to 2356 Amps / 1850kW (2500HP) @ 575 Vac  
up to 2085 Amps / 2000kW (2700HP) @ 690 Vac
- Control and fans power supply: 110/220VAC, 50/60Hz, w/ internal auxiliary transformer
- Control mode: scalar (V/Hz), open loop vector sensorless and closed loop with encoder.
- Switching frequency: 2.0 kHz
- Overload capacity: Normal Duty (ND) = 110% for 60sec every 10min  
Heavy Duty (HD) = 150% for 60sec every 10min
- Altitude: 0 to 1000m, up to 4000m with current derating (1% for every 100m above 1000m)
- Humidity: 5 to 95% non-condensing.
- Built-in PID controller.
- Flash memory
- Soft-PLC

**AFW11M panel arrangement:**

- Panel assembled system.
- In accordance to IEC 61439-1/2.
- VFD CFW11M G2 unit.
- Standard input protection: Circuit Breaker + High Speed Fuses.
- Cooling system: Air (fans).
- Protection Degree: IP42/IP54.
- Environment Installation: Indoor / Non Aggressive.
- Finishing: Epoxy powder Gray RAL 7035.
- Panel Space Heater.
- Control Power transformer.
- Lighting Module.
- Auxiliary Contactors.
- Bottom cables in/out.
- RFI/EMC filter.
- Input reactor.
- Mounted on Door:
  - Graphic keypad with backlight and real-time clock supplied as standard.
  - USB Connection.
  - Local Start/Stop pushbuttons.
  - Emergency Stop category 0 pushbutton.
  - Blown Fuse, Running and Fault pilot lights.

**Accessories (Select from CFW11 Accessories Pricelist)\*:**

- I/O Expansion Modules
- Temperature Transducers Modules
- Encoder Modules
- Communication Modules

(\*) The installation of the accessory and its wiring must be carried out by the customer.

**Optionals (Contact factory):**

- Changes in standard Input protection device (MCB/Disconnect Switch/Contactor).
- Input/Output Filters.
- Safety stop in accordance with EN-954-1, category III.
- Multimotor.

**Special versions (Contact factory):**

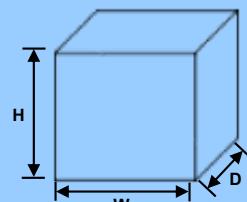

- Common / DC Bus Version.
- Multi Pulse Rectifier.
- Regenerative / AFE.
- Water cooled.

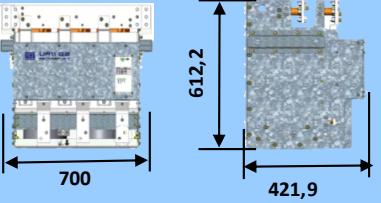

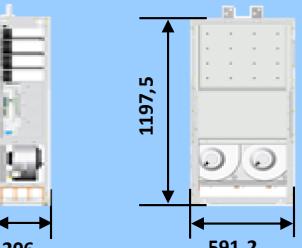

Note: For different optionals than herein mentioned, please contact factory.

(1) The motor powers are reference values; they are specified for WEG motors with 4 poles. The proper sizing must be done according to the rated current of the motors used.

(2) Maximum surrounding air temperature without current derating.

(3) There are two options for the control unit, one with Safety Stop (STO) function and one without STO. Choose just one of them.

(4) This extraction unit is an optional equipment used for an easier extract of the UR11 or the UP11 from the panel.

(5) Each package contains 2 pieces.

(6) This quantity is for 6 pulse configuration, it requires 2 units to make a 12 pulse configuration.

## ASW900 Self Supported Soft Starter Panel

ASW900 is a Low Voltage Soft-Starter assembled in an indoor, freestanding, metallic panel, designed to start and stop AC low voltage motors. It is a standard solution that combines high efficiency, easy installation and operation in a optimized design, assembled in a self-supported NEMA 4/12 enclosure. This product includes protections, functions and accessories ready to be used by the customer. The panel characteristics presented herein refers to WEG standard soft starter panel ASW900. Any necessary change can be done according to customer requests.

Approvals\*:

# ASW900

## Self Supported Soft Starter Panel

**Technical data:**

- Three-phase power supply.
- Voltage range: 220-575 V and 575-690 V
- Current range: up to 1400 Amps
- Control and fans power supply: 110/220VAC, 50/60Hz, w/ internal auxiliary transformer
- Control features: Current limitation; Voltage and Current Ramp Control; Torque control; Pump Control system;
- Overload capacity: 300% for 30 seconds, 10 Starts/hour (with ventilation kit) for frame sizes A through D
- Overload capacity: 300% for 30 seconds, 5 Starts/hour for frame size E through G
- Altitude: 0 to 1000m
  - From 1000 to 4000m with current reduction (1% for every 100m)
  - From 2000m up to 4000m with voltage reduction (1.1% for every 100m)
- Humidity: 5 to 90% non-condensing.
- Soft PLC
- Built-in By-pass

**ASW900 panel arrangement:**

- Panel assembled system.
- In accordance to UL/cUL.
- SSW900 unit.
- Standard input protection: Circuit Breaker or Disconnect Switch + High Speed Fuses.
- Cooling system: Air (Fans).
- Protection Degree: NEMA 1, NEMA 4/12, NEMA 4X;
- Environment Installation: Indoor / Non Aggressive;
- Panel Space Heater.(If required)
- Fused Control Power transformer.
- Auxiliary Contactors.
- Bottom cables in/out.
- Mounted on Door.
- Graphic keypad with backlight and real-time clock supplied as standard.
- USB Connection.
- Local Start/Stop pushbuttons;
- Emergency Stop category 0 pushbutton;
- Ready, Running and Fault pilot lights.

**Accessories (Select from ASW900 Accessories Pricelist)\*:**

- PT100 temperature transducer module
- Communication Modules

Note: For different optionals than herein mentioned, please contact.

**AFW11 RB**  
**Regenerative Braking Variable Frequency Drive**

The Regenerative Braking version is a bidirectional Variable Frequency Drive also known as AFE (Active Front End) or 4-quadrants inverter. This solution is recommended for applications with high inertia and continuous braking cycles like centrifugues, cranes, conveyors and mills. Recovering energy back to the power supply (regeneration), the AFW11 RB allows high braking torque levels and low input current harmonic distortion, improving system efficiency and energy saving.

## Regenerative Braking Variable Frequency Drive

**Technical data:**

- Three-phase power supply.
- Voltage range: 380-480Vac, 500-600Vac or 660-690Vac
- Control and fans power supply: 110/220VAC, 50/60Hz, w/ auxiliary transformer
- Current / Power range: up to 3012 Amps / 1850kW (2500HP) @ 380 - 480 Vac
  - up to 2356 Amps / 1850kW (2500HP) @ 500 - 600 Vac
  - up to 2085 Amps / 2000kW (2700HP) @ 660 - 690 Vac
- Control mode
- Switching frequency: 2kHz
- Overload capacity: Normal Duty (ND) = 110% for 60sec every 10min  
Heavy D
- Degree of protection: IP42 or IP54
- Operating temperature: according to selection table
- Cooling : Air (Fans)
- Altitude: 0 to 1000m
  - up to 4000m with current derating (1% for every 100m above 1000m)
- Humidity: 5 to 90% non-condensing.
- Finishing : Epoxy powder Light Gray RAL 7035
- Circuit Breaker and High speed fuses
- Panel Space Heater;
- Lighting Module;
- Auxiliary Contactors;
- Soft PLC.
- Input LCL filter;
- Mounted on Door:
  - Graphic keypad with backlight and real-time clock supplied as standard.
  - USB Connection;
  - Local Start/Stop pushbuttons;
  - Emergency Stop category 0 pushbutton;
  - Ready and Fault pilot lights.

**- I/O connections:**

	Std	IOA-01	IOB-01	IOC-01	IOC-02	IOC-03	PLC11-01	PLC11-02
Digital inputs 4	6	2	2	8	8	8	9	4
Digital output 1	-	2	2	-	8	7	3	3
Relay outputs	3	-	-	4	-	-	3	1
Analog inputs	2	1	2	-	-	-	1	-
Analog outputs	2	2	*	-	-	-	2	-

(\*) Module changes the standard CFW11 Analog output to isolated ports.

**- Fieldbus:**

RS232 WEbus	RS485 WEbus	Modbus RTU	Modbus TCP	Profibus DP	Profibus DPV1	Profinet	CANopen	DeviceNet	EtherNet/ IP	BACnet
N/A	N/A	RS485-01 or RS485-05 CAN/RS485-01 RS232-01 or RS232-05	MODBUS/TCP-05	PROFIDP-05	PROFIBUS DP-01	PROFINETIO-05	CAN/RS485-01 CAN-01	DEVICENET-05 CAN/RS485-01 CAN-01	ETHERNET/IP-05	RS485-01 CAN/RS485-01

**Accessories:**

- I/O Expansion Modules
- Temperature Transducers Modules (for PTC, PT100 and KTY)
- Encoder Modules
- Communication Modules

**Built-in Optionals:**

- Motorized Input Circuit breaker, Disconnect Switch/Contactor
- STO in accordance with EN-954-1, category III
- Load Reactor

Note: For different optionals than herein mentioned, please contact factory.

(1) The motor powers are reference values; they are specified for WEG motors with 4 poles. The proper sizing must be done according to the rated current of the motors used.

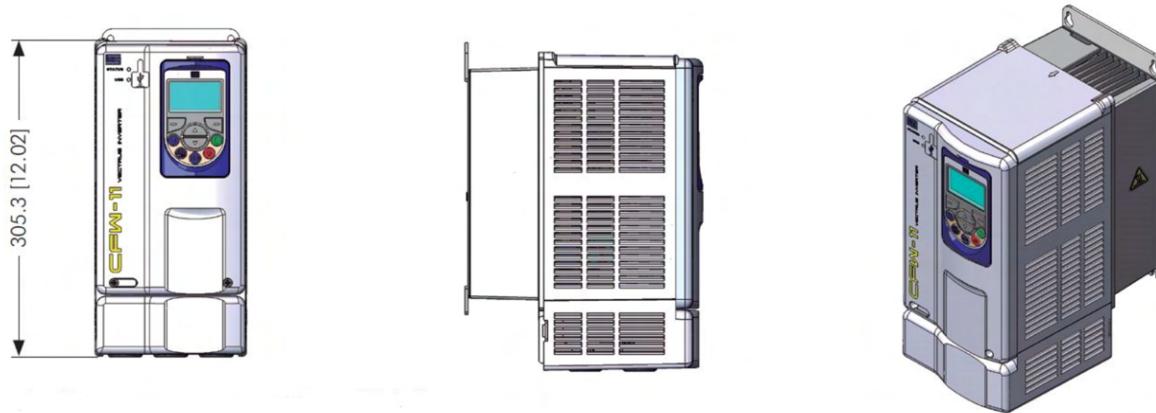

(2) Maximum surrounding air temperature without current derating

(3) These models uses the same T6 version drives, but fitted to T5 voltage level.
