

Molded-Case Circuit Breaker

UBW Series

The WEG UBW Series of Molded Case Circuit Breakers are designed to provide short circuit and thermal protection for industrial electrical equipment. Increased frame sizes and amperages cover more applications and when combined with our complete line of Automation/ Control products, provide customers a one stop shop for all their panel needs. The UBW product line ranges from 15A to 2500A and SCCR ratings for 35-100 KAIC to meet more of your application requirements. The UBW line offers the quality, reliability and uncompromising protection that you have come to expect from WEG.

- High capacity circuit breakers up to 2500A
- Multiple SCCR ratings: 35kA, 50kA, 65kA, and 100kA at 480VAC
- 80% rated for standard UL applications
- Maintenance mode for superior Arc Flash Protection
- Panel Mounted only
- Field or Factory installed options
- Optional multi-conductor line/load side lugs
- Frame Size: 225, 250, 400, 600, 800, 1200, 2500

ACW Series

The ACW molded-case circuit breakers were developed for the reliable protection of highly critical installations, complying with the specific technical requirements of each application. With a modern and compact design, the line is available in five different sizes, with currents ranging from 20 to 1,600 A. In addition, it has a high breaking capacity, being suitable for the severest applications, such as those of the marine sector.

- High capacity circuit breakers up to 1600A
- Ics = 100% Icu for entire series
- Communication interface: RS485, Modbus-RTU
- Complete line of field installable accessories
- Compact frame
